

Mesker Zoo Animal Highlight:

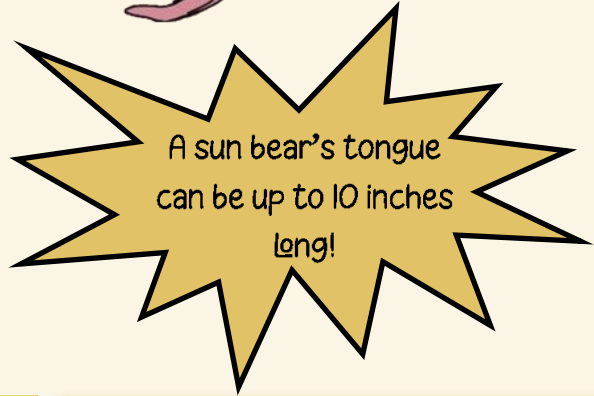

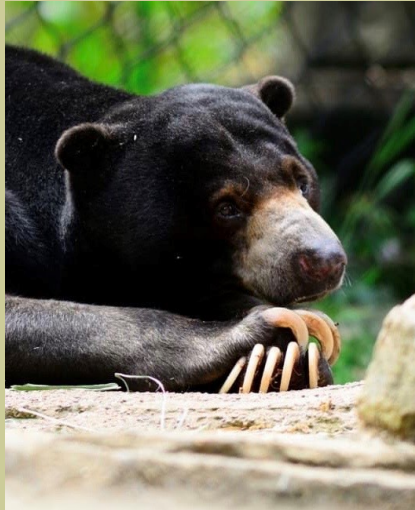

Name: Fong

Species:

Malayan Sun Bear

Fun Facts: The Malayan Sun Bear is the smallest bear, but also has the longest tongue!

Sun bears use their long tongues to reach insects inside of trees!

AWARENESS WEEK

Do you know your bears?

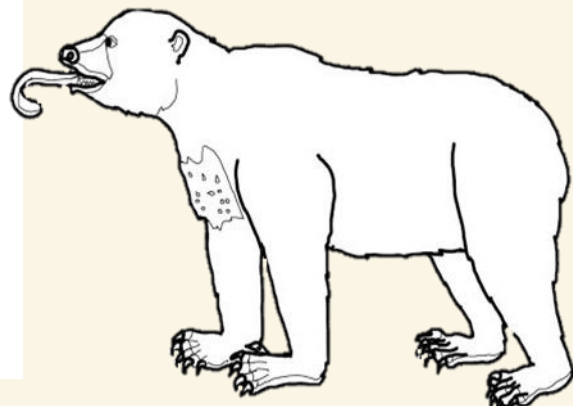

(Answers are provided on the bottom of this page.)

1. If the sun bear is the smallest bear, then what is the largest bear?
2. Which bear's diet is primarily made up of bamboo?
3. Which of these bears live in North America?
4. How many are either vulnerable or endangered?

Can you help Fong find his lunch?

(Help him stretch his tongue through the maze to get to the insect.)

Answers: 1. Polar Bear 2. Giant Panda 3. American Black Bear and Brown Bear 4. Six
